HEALTHCARE

ESSENTIAL TO HEALTH

Your Trusted Partner in Aged Care Solutions

For over 100 years, EBOS Healthcare has been dedicated to providing reliable, quality healthcare solutions across Australia. Our mission is to deliver exceptional value, helping aged care providers offer the best care while saving on costs.

Quality Assurance: Trusted, high-quality products that support the well-being of your residents.

Affordable Excellence: A commitment to delivering exceptional value without compromise.

Reliable Support: Our dedicated teams are here to support your facility with simple, responsive service every step of the way.

Why Partner with Us?

We offer extensive product choices, convenient online ordering, dedicated customer service, and a reliable, responsive delivery system. EBOS Healthcare also provides free education and training resources to support your staff and ensure the highest standards of care.

Osmocel® Si Silicone Hydroporous Foam

Osmocel® Si Silicone Hydroporous Foam is a dressing that protects the skin and wounds. The Osmocel Si promotes wound healing and excess exudate absorption, to decrease the need for frequent dressing changes.

Osmocel Si Silicone Hydroporous Foam is suitable for skin tears, superficial wounds with light exudate, arterial, diabetic, and venous leg ulcers, pressure injuries, partial thickness burns, and surgical wounds.

EBOS Code	Description	UOM	PRICE
10008567	OSMOCEL SI-SILICONE FOAM LITE 5x5cm	Box/10	\$21.20

10015471	IMPERVIA® NEOSORB SUPERABSORBENT DRESSING 20cm x 30cm	Box/20	\$102.21

AsGUARD® Flex Fabric Fixation Tape, Non-Woven

AsGUARD® Flex Fabric Fixation Tape is a "cut to length" self-adhesive, non-woven tape that is highly comfortable, conforming and breathable.

It is suitable for fixations of dressings and access devices, and acts as a skin protective layer under more aggressive adhesives. Its flexibility also makes this tape ideal and comfortable against joints and difficult contour areas without movement restriction.

EBOS Code	Description	UOM	PRICE
10015523	ASGUARD FLEX NON WOVEN ROLL 2.5cmX10m	Roll	\$3.89
10015524	ASGUARD FLEX NON WOVEN ROLL 5cmX10m	Roll	\$5.56

10015527	ASGUARD FLEX NON WOVEN ROLL 15cmX10m	Roll	\$15.35

IMPERVIA® Sterile Absorbent Dressing

IMPERVIA® Sterile Absorbent Dressings are a highly absorbent inner layer with blue impervious backing enclosed by a soft non-woven fabric, making it suitable for primary or secondary dressing, the protection of clothing and linen and moderate to heavy exuding wounds.

EBOS Code	Description	UOM	PRICE
10015466	IMPERVIA® STERILE ABSORBENT DRESSING 20cm X 20cm	Box/25	\$48.70

AQUACEL® Ag Foam Dressings

AQUACEL® Ag Foam is a Hydrofiber™ foam dressing with silver that have been designed to be a primary dressing. AQUACEL® Ag Foam is comprised of a soft foam pad for fluid absorption offering both a waterproof and bacteria barrier to prevent moisture transmission and protection from bacteria penetration. It is ideally used for exuding acute or chronic wounds prone to infection.

Benefits of this dressing:

- Lock in wound exudate, including bacteria
- Help maintain a moist wound healing environment
- Help prevent lateral spread of fluid, reducing risk of maceration
- Micro-contour to the wound bed, minimising dead space where bacteria can grow
- The 1.2 % ionic silver in the dressing a wide variety of micro-organisms, pathogenic microorganisms, including wound bacteria, yeasts and moulds

Do you recognise the signs? It's time to upgrade to a Compact+

IT IS RECOMMENDED THAT UPGRADING YOUR MACERATOR AFTER 130,000 CYCLES OR 7 YEARS OF SERVICE, WHICHEVER HAPPENS FIRST.

Older macerators become increasingly difficult to repair as components show signs of wear and replacements are no longer readily available. This greatly increases the risk of machine downtime.

A macerator which has been poorly maintained can even pose a safety risk to both the technical staff and healthcare professionals. Worn or damaged components such as the rubber lid seals can also allow aerosols in into the sluice room putting staff in the path of HCAIs.

Signs a macerator is ready to be replaced:

1. Stop the macerator mid-cycle and open the lid. If the water level is significantly lower than the black line there may be an issue with the water pump or plumbing.
2. Is your macerator completely touchless? If not, this could pose an infection risk due to potentially contaminated touch points.
3. Excessive rust on the baseplate is a sure sign a macerator has had a long-term water leak.
4. Is the lid seal damaged or showing signs of mould?
5. The service card within the electrical cabinet can be used to check how well a macerators has been maintained.
6. Run a cycle to check if the motor is making a grinding noise, this is a symptom of worn bearings.

Why Choose Compact+?

Prevents aerosolisation of potentially harmful pathogens with an inflatable lid seal.

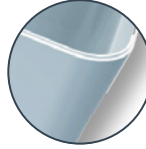

Reduces risk of cross infection by completely eliminating contact with the machine.

Minimises risk of spillage and splashback with a user friendly lid which has a wider opening and deeper drum for easier disposal.

Saves space in crowded sluice/dirty utility rooms with an elliptical drum.

Easy to clean with a modern aesthetic design and large smooth surfaces and minimal grooves.

Minimises down-time with advanced diagnostics and self diagnosing screen.

SPECIAL OFFER: Upgrade your macerator to a Compact + during this promotional period and we will provide you with a an additional \$1000* which you can use to purchase supports, covers or dispensers/racking to suit up your sluice room.*

\$9,999

JOBST® soSoft

8-15mmHg Compression sock

Essity is excited to announce a new range of Ready-to-Wear compression socks.

JOBST® soSoft compression socks provide graduated compression to help support circulation and are an integral part of a skin tear protocol, helping with prevention and treatment. Compression therapy should be considered if the wound is on the lower leg. Before applying compression, a full leg assessment should be carried out.

With gentle compression of 8-15mmHg, JOBST® soSoft compression socks can help tired and achy legs, are suitable for longer periods of sitting and standing and provide relief from minor oedema.

JOBST soSoft compression socks are available in a stylish ribbed pattern, in Black and Sand colours

STETHOSCOPES ON SALE

Great savings on 3M Littmann Stethoscopes

3M™ Littmann® CORE Digital Stethoscopes

The 3M™ Littmann® CORE Digital Stethoscope is designed with an outstanding acoustic performance, providing up to 40x amplification for effective heart sound detection in giving accurate diagnostics to adult and paediatric patients.

The active noise cancellation feature reduces unwanted background sounds while ensuring that the heart and lung sounds of the patient are specified well. Its connectivity to the Eko software enables the waveforms of heart sound to be visualised and shared without hitches, making it useful in clinical practice.

Tunable, dual-sided, stainless steel chest-piece designed for adaptability to allow versatility in auscultation with a simple rotation. Soft-sealing ear tips offer optimal comfort and excellent sound passage to the ears.

EBOS Code	Description	EACH
