

THE VERNACARE WASHBOWL RANGE

Environmental Benefits

- Reduced amount of plastic in landfill
- Lower environmental impact than alternatives

Nursing Time Benefits

- Improved patient experience
- Increased nurse productivity

Financial Benefits

- Reduced HCAI costs
- Reduced cost of re-processing alternatives

62%

A two-year study across 88 hospitals showed that 62.2% of clean plastic wash basins were contaminated with pathogens including VRE and MRSA

Infection Prevention Benefits

- Reduced risk of cross infection
- Increased patient safety

The benefits

- 1 Designed for strength and ease of use
- 2 Unique patented products
- 3 Hold warm water and soap for up to 2 hours (up to 45°C)

Plastic hospital basins are frequently contaminated with multidrug-resistant human pathogens.
