# HAINES® DISPOSABLE LINEN

Significant cost savings and improved infection control

**Haines®**  
MEDICAL AUSTRALIA

## HAINES® DISPOSABLE LINEN

Haines® Medical Australia's Disposable Linen is currently used by hundreds of healthcare facilities around Australia and is designed to replace or complement your reusable linen in a healthcare environment. It is best suited for high turnover areas (faster fitting and no waiting for reusable linen) and high infection risk areas. It is a cost effective and environmentally-friendly alternative to washing reusable linen and, unlike paper linen, is soft and comfortable to lay on.

### WHY CLIENTS USE HAINES® DISPOSABLE LINEN

- **EasyFit** - elastic sewn all around on fitted sheets allows covers to fit various widths / lengths
- **Save time** - fitted sheets cover top, sides and ends with elastic sewn all around for improved fitting and fast placement of cover
- **Reduce costs** - where reusable linen wash costs are not economic
- **Availability** - removes any delays for new patients caused by lack of reusable linen
- **Improve infection control** - removed issues associated with collection, washing and cleanliness of reusable linen, especially in remote areas where pick-up of dirty linen is not frequent, disposable linen offers a hygienic solution

### FEATURES

- SMS on fitted, flat sheets and pillow cases (3 layers of non-woven adding strength and softness)
- Latex free (all products)
- Water and blood resistant
- Elastic all around fitted sheets
- Fire Retardant (tested to AS2755.2-1985)
- TGA Registered
- Recyclable (Disposable Blankets and Pillows need separation or cannot be recycled in some states)
