

HEELMEDIX[®]

All-in-one pressure relief and skin protection.

Every heel needs protection.

RELIEVE PRESSURE AND PROTECT VULNERABLE HEELS.

Clinical Studies Show Effective Results¹

Using a pressure-sensing mat, 19 patients in a long-term care facility were tested for heel pressure on a mattress and in a Heelmedix device. Heelmedix completely offloaded the vulnerable heel area. Here are the pressure mapping conclusions:

Item No.	Description	Pkg
MDTE823330P	Heelmedix, Petite, Heel Protector	1/ea
MDTE823330SW	Heelmedix, w/ Wedge, Heel Protector	1/ea
MDTE823330	Heelmedix, Heel Protector	1/ea
MDTE823330XL	Heelmedix, XL, w/Wedge, Heel Protector	1/ea

Equipped with 3-hole options on each side of the boot for DVT pressure devices.

BENEFITS

- » Completely offloads the heel and helps redistribute pressure.
- » Screen printing of "toes" and "heel" eliminates confusion to ensure the boot is applied properly.
- » Open heel design allows for airflow and easy monitoring.
- » Grey straps pull down on sides to help protect against foot drop.
- » An optional wedge can be used to help prevent medial & lateral rotation.
- » Patented side hole design minimises chance of SCD tubing touching patient's skin.
- » Inner lining helps reduce friction and shear
- » Includes a mesh laundry bag to simplify washing and sorting.
